Volume 29 Index

January/February pp. 1–80, March/April pp. 81–184, May/June pp. 185–276
July/August pp. 277–356, September/October pp. 357–448, November/December pp. 449–552

Air conditioning. Filtering Fine Points 28

Air conditioning. Filtration in the Semiconductor Industry 18

Air filtration. Cerafil Filter Commissioned at Mountstar Metals 99

Air filtration. Fast, Automated Testing of Different Air Filter Media 45

Air filtration. Filtering Fine Points 28

Automotive filtration. Fuel Filtration in the Automotive Industry 309

Biotechnology. Membrane Processes: Versatile Technology for Cutting Costs and Protecting the Environment 386

Capillary filtration. Capillary Filtration at Outokumpu Mintec 464

Cartridge filters. Interpreting the Rating of Cartridge Filters 333

Cartridge filters. Testing the Performance of Spool-Wound Cartridge Filters 162

Cartridges. The Treatment of Oily Water by Coalescing 295

Centrifuges. Effects of Step Drums on Solids Residence Times in Conical Basket and Tumbler Centrifuges 147

Centrifuges. Intensive Sludge Dewatering with Centripress 121

Centrifuges. Laboratory Tests and Methodology for the Design of Centrifugal Filtration-Washing-Dewatering Cycles 254

Centrifuges. Regenerative Centrifuge Drive 125

Ceramic filters. Cerafil Filter Commissioned at Mountstar Metals 99

Ceramic filters. Effects of Dust Properties on Gas Cleaning using Rigid Ceramic Filters 337

Ceramic-metal mesh composite membranes. Composite Membranes for Cost-Effective Large Applications 381

Clean rooms. Cost-Effective Clean Room Designs 12

Clean rooms. Filtration in the Semiconductor Industry 18

Coalescing. The Treatment of Oily Water by Coalescing 295

Combustion gases. Simple Design of a Crossflow Moving Bed Heat Exchanger-Filter (MHEF) 155

Combustion gases. The Filtration of PFBC Combustion Gas in a Granular Bed Filter 239

Company profiles. Århus Meets Commitment to Regain Clean Water Environment 372

Company profiles. Capillary Filtration at Outokumpu Mintec 464

Company profiles. Lydall – Manufacturer of Advanced Filtration Media 290

Company profiles. Tailored Customer Support from Sartorius 202

Composite membranes. Composite Membranes for Cost-Effective Large Applications 381

Contamination control. Particle Counting as a Filtration Monitor 206

Continuous filter presses. Expressing the Best of Both Worlds 218

Crossflow microfiltration. Electro-Acoustic Crossflow Microfiltration 425

Depth filters. Charge Modified Depth Filter – Technology and its Evolution 221

Dewatering. Capillary Filtration at Outokumpu Mintec 464

Dewatering. Empirical Modelling of a Dewatering Process using Multivariate Data Analysis 57

Dewatering. Intensive Sludge Dewatering with Centripress 121

Disc filters. Empirical Modelling of a Dewatering Process using Multivariate Data Analysis 57

Drum filters. Turbodrum Filter Sets the Pace 215

Dust containment. Containment of Hazardous Dust and Vapours 94

Electroflotation cells. Separation of Oil from Oil/Water Emulsions using an Electroflotation Cell with Insoluble Electrodes 419

Fabric filters. A Method for Investigating the Behaviour of Mechanically Shaken Filter Bags 413

Field-assisted separation. Electro-Acoustic Crossflow Microfiltration 425

Field-assisted separation. The Role of Field-Assisted Techniques in Solid/Liquid Separation 246

Filter bags. A Method for Investigating the Behaviour of Mechanically Shaken Filter Bags 413

Filter media. Charge Modified Depth Filter – Technology and its Evolution 221

Filter media. Fast, Automated Testing of Different Air Filter Media 45

Filter media. Lydall – Manufacturer of Advanced Filtration Media 290

Filter media. Nomex Delta FF Sets New Standard for High-Temperature Filtration 473

Filter presses. Århus Meets Commitment to Regain Clean Water Environment 372

Filter presses. Expressing the Best of Both Worlds 218

Filter testing. Fast, Automated Testing of Different Air Filter Media 45

Filtration-washing-dewatering cycles. Laboratory Tests and Methodology for the Design of Centrifugal Filtration-Washing-Dewatering Cycles 254

Fluid power systems. Stability and Staying Power 468

Fuel filtration. Fuel Filtration in the Automotive Industry 309

Gas cleaning. Effects of Dust Properties on Gas Cleaning using Rigid Ceramic Filters 337

Granular bed filters. The Filtration of PFBC Combustion Gas in a Granular Bed Filter 239

High-temperature filtration. Nomex Delta FF Sets New Standard for High-Temperature Filtration 473

Hydraulic system contamination. Spheres of Influence 97

Hydraulic system contamination. Stability and Staying Power 468

Mechanically shaken filter bags. A Method for Investigating the Behaviour of Mechanically Shaken Filter Bags 413

Membrane filters. Tailored Customer Support from Sartorius 202

Membrane fouling. Electro-Acoustic Crossflow Microfiltration 425

Membrane fouling. New Separation System Extends the Use of Membranes 376

Membrane processes. Membrane Processes: Versatile Technology for Cutting Costs and Protecting the Environment 386

Membranes. Composite Membranes for Cost-Effective Large Applications 381

Membranes. New Separation System Extends the Use of Membranes 376

Membranes (cartridges). High Flux Membrane Cartridge Filter 23

Microfiltration. Electro-Acoustic Crossflow Microfiltration 425

Modelling. Empirical Modelling of a Dewatering Process using Multivariate Data Analysis 57

Moving bed heat exchanger-filters. Simple Design of a Crossflow Moving Bed Heat Exchanger-Filter (MHEF) 155

Oil filters. Recent Developments in Oil Filter Test Methods 327

Oil skimming. Oil Skimming Using a Flexible Floating Tube 304

Oil/swarf recovery. Dunlop Hi-Flex Cuts Swarf Handling Costs with Automated FSP System 475

Oil/water separation. Oil-Water Separation by Flow Diversion 303

Oil/water separation. Separation of Oil from Oil/Water Emulsions using an Electroflotation Cell with Insoluble Electrodes 419

Oil/water separation. The Treatment of Oily Water by Coalescing 295

Particle counting. Counting on the Right Optical System 211

Particle counting. Particle Counting as a Filtration Monitor 206

Particle counting. Recent Developments in Oil Filter Test Methods 327

Pharmaceuticals. Membrane Processes: Versatile Technology for Cutting Costs and Protecting the Environment 386

Process chemical filtration. Filtration in the Semiconductor Industry 18

Process water purification. Membrane Processes: Versatile Technology for Cutting Costs and Protecting the Environment 386

Rating of filters. Interpreting the Rating of Cartridge Filters 333

Red mud. Grecian Red Mud — Thickening and Filtration Parameters and Process Design 51

Rotary drum filters. Turbodrum Filter Sets the Pace 215

Sedimentation. Grecian Red Mud — Thickening and Filtration Parameters and Process Design 51

Semiconductor fabrication. Filtration in the Semiconductor Industry 18

Semiconductor fabrication. High Flux Membrane Cartridge Filter 23

Sludge treatment. Intensive Sludge Dewatering with Centripress 121

Solid/liquid separation. The Role of Field-Assisted Techniques in Solid/Liquid Separation 246

Solids residence times. Effects of Step Drums on Solids Residence Times in Conical Basket and Tumbler Centrifuges 147

Testing of filter media. Fast, Automated Testing of Different Air Filter Media 45

Testing of filters. Recent Developments in Oil Filter Test Methods 327

Testing of filters. Testing the Performance of Spool-Wound Cartridge Filters 162

Thickening. Grecian Red Mud — Thickening and Filtration Parameters and Process Design 51

Tumbler centrifuges. Effects of Step Drums on Solids Residence Times in Conical Basket and Tumbler Centrifuges 147

Ultrapure water. High Flux Membrane Cartridge Filter 23

Wastewater treatment. Århus Meets Commitment to Regain Clean Water Environment 372

Wastewater treatment. The Cost-Effectiveness of a Filter System 393

Water filtration. Total Water Filtration — In More Ways Than One 306

Welding fumes. Spheres of Influence 97

F&S
